

California OES Weather Threat Briefing

Tuesday, March 9, 2021
9:00 AM PST

Day 1 (Tuesday): Periods of rain, mountain snow, gusty winds and isolated thunderstorms are expected across northern and central California today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

03/09/21 - 03/15/21

Tuesday-Monday

- Cool and unsettled conditions are expected through Thursday across the state, bringing periods of rain, mountain snow, gusty winds and isolated thunderstorms.
 - Mountain snow may lead to travel impacts for the Sierras and northern mountains through Wednesday
 - Southern California mountains beginning late Tuesday and continue through early Friday.
 - Rainfall rates may produce minor runoff and debris flow, but no widespread significant impacts are expected.
- Drier weather and milder temperatures are expected into the weekend.
